PROFESSIONAL SUMMARY

Full-stack Software Developer with 6+ months of professional experience at AltiusNXT Technologies building AI-integrated web applications, browser extensions, and internal enterprise tools. Proficient in React, Node.js, Python (Flask/FastAPI), and PostgreSQL, with hands-on experience deploying production systems on AWS EC2 and Hostinger.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+)
Frontend: React.js, HTML5, CSS3, Tailwind CSS, Vite
Backend: Node.js, Express.js, Flask, FastAPI, REST APIs
Database: PostgreSQL
AI & Cloud: Google Gemini API / LLM Integration, AWS EC2, Hostinger, Gunicorn
Tools & Auth: Git, GitHub, JWT, OAuth 2.0

PROFESSIONAL EXPERIENCE

AltiusNXT Technologies — Coimbatore

Junior Software Developer

Jan 2026 – Present

- Own end-to-end development of full-stack web applications and browser extensions across the AltiusNXT internal tools suite, using React, Node.js/Express, Flask, and FastAPI
- Integrate Google Gemini LLM APIs to power AI-assisted features such as automated data validation and content analysis
- Deploy and maintain production applications on Hostinger and AWS EC2, configuring Gunicorn/systemd services for reliability
- Converted from intern to full-time Junior Software Developer after DeepTech LaunchPad internship, based on performance

DeepTech LaunchPad — Coimbatore (AltiusNXT Technologies)

Software Development Intern

Aug 2025 – Dec 2025

- Built and contributed to full-stack web applications and browser extensions using React, Node.js, Flask, and FastAPI
- Assisted in integrating Google Gemini LLM APIs for AI-assisted data validation features
- Learned and applied production deployment workflows on Hostinger and AWS EC2

KEY PROJECTS

LMS Employee Training — Corporate Learning Management System

React, Node.js, Express, PostgreSQL, JWT, Tailwind CSS

- Built a full-stack LMS with role-based dashboards for HR, SME, Trainer, and Learner roles
- Implemented course sequencing, auto-scored timed MCQ assessments, and trainer review workflows
- Automated PDF certificate generation and email/cron-based reminder notifications

Altius Query Board — AI-Integrated Chrome Extension

Python, Flask, PostgreSQL, Google Gemini API, JavaScript

- Built a Manifest V3 Chrome extension with a Flask/PostgreSQL backend to validate and manage product query workflows
- Integrated Google Gemini LLM for semantic validation and automated grammar/data checks
- Deployed to a live production server on Hostinger with HTTPS and automatic local/live URL fallback

3-Bucket Retirement Planning Simulator

Python, Flask, PostgreSQL, NumPy, Pandas, AWS EC2

- Built a Monte Carlo simulation engine (100 runs) modeling a 3-bucket retirement drawdown strategy with year-by-year projections
- Implemented Google OAuth and passwordless magic-link authentication
- Deployed on AWS EC2 using Gunicorn and systemd for production reliability

EDUCATION

Sankara College of Science and Commerce — Coimbatore

Bachelor of Science in Information Technology

Aug 2022 – May 2025

CERTIFICATIONS

- Ideathon Participant, Sankara College (2024) — Contributed innovative solutions in a real-world ideation challenge
- Hackathon 2K24, KGISL College (2024) — Developed functional prototypes under strict time constraints
